

# Five Year Plan Next Steps

Completion and Submission

- Acknowledge the effort leading up to this point
- Final steps to complete the plan and getting PTN approval

- Recommend submitting a draft version to PTN for review before it's adopted
- So far all the plan reviews have resulted in additional work necessary to fulfil the requirements in the PGA
  - Only work on the plan completed before the PGA expiration date is eligible for reimbursement
  - PTN application review process takes time
  - Plans will be reviewed in the order they are submitted

If there are concerns about this, talk to your PTC soon.

The plan needs to be approved by PTN and adopted locally before the final reimbursement can be approved.

- The PGAs expire on February 28, 2022
- Reimbursement requests are required within 45 days of the end of the PGA
